A Matter of Birthdays.
Teacher—Why were you not at school yesterday?
Willie—It was my birthday.
Teacher—But I don't stay home from school on my birthday.
Willie—Well, I guess you've got used to 'em.—Philadelphia Record.

South American Horses.
In many South American countries the horses go unsaddled or with shoes on the forefeet only.

BAD TASTE IN THE MOUTH,

Dizziness, and a general "no account" feeling is a sure sign of a torpid liver. The remedy is Simmons Red Z Liver Regulator (The Powder Form). It exercises its greatest restorative effect in the liver, yet it is effective in the stomach and bowels. Indigestion, constipation and their attendant evils disappear before its powerful, regulating influence. Try its wholesome purifying properties. It will give you a good appetite, sound digestion and make you feel well.

Sold by Dealers. Price, large package, \$1.00.
Ask for the genuine with the Red Z on the label. If you cannot get it, remit to us, we will send it by mail, postpaid. Simmons Liver Regulator is also put up in liquid form for those who prefer it. Price \$1.00 per bottle. Look for the Red Z Label.

J. H. ZEILIN & CO., Props., St. Louis, Mo.

Gave Him a Tip.
"Did they give you a tip?" asked a restaurant proprietor of a new waiter who had just served his first customers.
"Yes, sir," was the reply. "They told me I had better go and carry a load!"

SCHOOL BOARD BUYS NEW SITE

On Which to Erect Palatka's New High School.

The county school board working in full harmony with the trustees of the Palatka sub-school district, has this week purchased 75 x 100 feet of land on Fifth street adjoining the present high school lot on the south.
This property was purchased of Mrs. G. M. Davis, mother of Mayor H. A. Davis, and the consideration was \$3,500. This purchase now gives the school board a total frontage on Fifth street of 225 feet.
This location, while it may have some disadvantages for school purposes, certainly has so many advantages that the disadvantages will be lost sight of. The property faces the court house square and is central.
It is the purpose of the school board and the local trustees to secure funds for the erection of a new high school building. This can now be erected on the new purchase without interfering with the school which will go right along in the old building.
The old building will not be torn down, but even when the new building has been completed will be needed for grammar school purposes.
The board has not yet fixed upon a plan for securing money for the new high school building, but will probably do so before very long. In fact the board has JUST GOT IT TO DO.

For the past three years the present building has been inadequate to properly accommodate the pupils, the number of which is now increasing rapidly. Increased school accommodations are imperatively demanded to first build and equip a building for the high school proper, in which there are now about 75 pupils. For this purpose at least \$25,000 will be required.
Palatka is behind in the matter of school accommodations.
5 or 6 doses "666" will cure any case of Chills and Fever. Price, 25c.

TAPEWORMS Expelled by PLANT JUICE.

Many people thought to be dying from some lingering disease, such as Consumption, are no doubt merely victims of a stomach parasite which is sapping their life away.
The common tapeworm symptoms are stomach distress, excessive craving for food, loss of flesh, dizziness, palpitation of the heart, and convulsions.
Plant Juice has been wonderfully successful in completely removing these pests and repairing the damage they have done.
Plant Juice is \$1 a bottle at all druggists. Six bottles will be sent prepaid for \$5.00.
Sold by City Drug Store, Palatka, F. A. DILLINGHAM, 831-33 W. 5th St. Cincinnati, O. Write for Free Plant Juice Book.

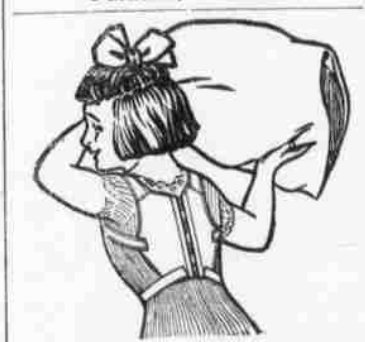

5 or 6 doses "666" will cure any case of Chills and Fever. Price, 25c.

MAKING HIS DOLLAR GO FAR

George Washington once threw a dollar across the Potomac, which is typical of all right minded people to make their money go as far as possible. We can make your dollar spread over more ground when you intend buying building lots or homes than anyone in Palatka when you invest with the buying. We are experts in present and future values and enable you to invest your money judiciously when consulting

WOODENWARE PLANT IN FULL SWING

With Capacity of 1000 Tubs per Day—Scene of Activity.

Palatka's New Industry Will Employ Sixty Hands.

The new manufacturing plant of the Florida Woodenware Company in this city began turning its machinery for the manufacture of buckets and tubs on Thursday of last week and is now in full swing, and working perfectly in every part.

This is due to the determination of the company, and as stated at its formation, to have everything in readiness before the machinery was set in motion. That readiness was declared last Thursday, the 4th inst. and the wheels began to turn.

The Florida Woodenware company's plant occupies extensive grounds beyond the mills of the Wilson Cypress Company and has a river front of 400 feet. A branch track of the A. C. L. R. runs to the plant proper and its product can be easily loaded on cars at their own door.

The plant consists at present of one mill 42 x 100 feet, a warehouse 42 x 100 feet, a dry kiln 40 x 96 feet and capable of holding 140 trucks of material, an engine room 20 x 40 and a boiler room 28 x 46 in which are two boilers of 80 and 100 pounds pressure respectively.

At present the plant furnishes employment to 30 hands and within a month will employ double that number.

The raw material which enters into the product of the plant comes from the Wilson mill and as far as that company's use for it is concerned, would be considered as waste. This material, of which there is an abundance is delivered by the Wilson Company at the door of the woodenware plant where it is sawed into staves for the various sized buckets or tubs, thence to the big dry kiln, from whence it is taken thoroughly dried and made into the finished product.

The present capacity of the plant is 1000 buckets per day, but before the end of the year this will be increased to 1,500.

These tubs are used by the various companies that make food products from cottonseed, also by the great lard dealers. Candy pails and water buckets are also made.

Some of these manufacturing companies use as high as 200,000 tubs per year. The Florida Woodenware Company is ideally located for the economic manufacture and shipping of its product. It is near the source of supply for its raw material, and close to its market—the factories which will use its product.

The other big woodenware companies of the country are Davenport, Iowa, and at Bay City, Mich. The Wilson Cypress Company formerly shipped cypress material all the way to Davenport, Iowa, for manufacture into tubs. The Palatka plant will now take all this.

There never has been any question of the ability of the new company to sell its product. It will readily sell all it can make.

The company is determined that every package leaving its plant shall be perfect in every particular, and it has expert workmen competent to detect the slightest flaw.

The Florida Woodenware Company is a close corporation. It is owned by four men who own its stock in equal amounts. These men are F. H. Wilson, president; C. H. Preston, vice-president and general manager; W. F. Merriam, secretary, and C. G. Grimmer, treasurer.

Its big plant, so situated that it can grow with the demands of its increasing business is a success from the start, for it already has contracts sufficient to keep its machinery going for some time. In the meantime it will make other contracts.

It is a new and important addition to Palatka's rapidly increasing manufacturing interests.

Hannah Bell Abandoned.

The British steamer Hannah M. Bell, which has been on Elbow Reef for two weeks, says a Key West, Fla. dispatch is a total loss. Captain Thomas and his crew have abandoned the vessel as she has broken up in the heavy weather of the past few days. She was bound from Norfolk to Vera Cruz with coal.

Big Land Deal Closed.

Two important deals in real estate have just been closed by the local estate firm of Sapp & Hill at Jacksonville, these representing the sale of 100,000 acres of land. A further sale of 7,000 acres has been effected, the latter to be used for colonization purposes.

Weather Observer Resigns.

J. P. H. Bell who for many years has been local weather observer at Gainesville, has tendered his resignation, and, while the weather bureau regrets the action, the same has been accepted and became effective May 1st. John Schuble has been named to succeed him.

Died at Ocala.

Thomas Conner Karns, late professor of English literature at the University of Tennessee, died at Ocala, Fla., April 30. Undertaker Armstrong prepared the body for shipment, and Miss Bishop, a niece of the professor, left with the remains for Knoxville, Tenn.

St. Augustine Entertains.

The state camp of P. O. S. of A. held their annual convention in the Ancient City. Exercises were held in the Masonic hall. The delegates were given a warm reception by the local members. About seventy-five delegates attended.

To Colonize Land.

The Florida Association of Philadelphia, the purchasers of the 5,000-acre Fuller tract, located on Sarasota Bay, between Cortez and Long Boat Key, is making preparations to colonize this land.

Never can tell when you mash a finger or suffer a cut bruise, burn, or scald. Be prepared. Dr. Thomas Electric Oil instantly relieves the pain—quickly cures the wound.

RACE TRACK MEN TO IGNORE LAW

Claim That Legal Technicality Will Defeat Bill Recently Passed.

Other Measures Before the Legislature This Session.

Mr. W. T. Bauskett, the live wire representative of the Times-Union at Tallahassee, and from whom nothing of importance in the way of news at Tallahassee is likely to escape, says that: "A rumor has been current here for some days that the race track people would attack the validity of the bill on the point made by Representative Dougherty some days ago, viz: That its title related to two subjects not related, one making certain contests between man or beast a felony and the other repealing a law the practical effect of which was to extend the charter of the state fair or race track association."

"It is impossible to confirm the rumor here as there is no one in Tallahassee authorized to say what the race track people will do, but I heard today that at a recent meeting of the State Fair and Live Stock Association in Jacksonville it was decided to go right ahead in preparation for the contest just as if nothing had happened in Tallahassee. I heard also that it was also figured at this meeting that a decision on appeal could be staved off for the necessary sixty days for the meet and that the association would not be restrained, fines aggregating even to \$50,000, being assessed against the association according to the report was also discussed but it was not a pleasant topic and was put off as one of those bridges to be crossed when you come to it."

It will be remembered that when the race-track bill came up for passage in the House last week, it met with opposition to the measure on the part of the race track promoters was suddenly withdrawn and that its most bitter opponents in the House voted for the measure they had been engaged in fighting.

One of the most important pieces of legislation of the past week was the passage by the House of Senate bill No. 5, which is an act to provide for the acquisition of a site and the erection, building and furnishing of a building thereon for the use of the Supreme Court, the Railroad Commission and for a library. This bill which originally made an appropriation of \$200,000 for the new building was cut to \$100,000 in the House.

Another important measure to pass the House last week was the bill to establish Pinellas county from territory cut from Hillsborough county, a bill that was strongly opposed by the citizens of Tampa as well as the entire Hillsborough delegation in the legislature. This bill passed the House by a vote of 34 to 26. Mr. McKenzie of Putnam voted for the division and Mr. Middleton against.

House bill No. 145 entitled an act requiring carriers to honor regular tickets sold at regular rates any time within one year from the date of sale and prescribing a penalty for violation thereof, had its real purpose killed by an amendment offered by Mr. McKenzie of Putnam county, whose amendment was that it be fixed at "one month" instead of "one year." The bill was in the interest of every purchaser of a railroad ticket. After being ruined by the McKenzie amendment the bill was indefinitely postponed.

House bill No. 388, which permits the authorities of the city of Palatka to loan or deposit money of the city where it can get the best rate of interest was put through the Senate by Mr. Hilburn without trouble.

Gov. Gilchrist on Tuesday signed the anti-race track bill.

The House passed the Senate bill providing for the payment of premiums long since due and awarded by the managers of the State fair at Tampa.

There are bills and bills yet to be considered. Mr. Bauskett says that "thus far there have been introduced in the Florida legislature 1,100 measures—over 900 in the house and 200 in the senate. A few of the measures are good, but about 95 per cent are the inconsequential embodiment of a smother of half-baked ideas, usually drawn to fit some isolated experience of fact or imagination. They have right-of-way in order of seniority, of course, and it is therefore certain that many good bills will never come to a call of the roll, but will die on the calendar. To consider 1,400 measures properly would require at least a year of careful deliberation."

Even the chaplain has recognized the impossibility of human help in bringing the membership to a sense of their responsibility to the state, for in his prayer Wednesday morning he said: "Whatever the members of the body may lack in wisdom and discretion we beseech Thee, Oh Lord, to supply the deficiency."

POMONA LETTER.

Miss H. Tinsley has gone to her old home in Missouri for a few weeks.

Misses Mary and Florence Williams left Tuesday for Tallahassee to spend a short time with their brother, W. S. Middleton.

Mr. and Mrs. J. W. Edmonds arrived Saturday from Daytona Beach to spend a couple of weeks in their cottage before going north.

Pomonaites who were in Palatka recently are J. W. Tucker W. H. Bellamy, Mrs. H. A. Perry, Miss Edith Crook, Mrs. W. H. Cook, S. E. Peck and C. H. Pipar.

W. M. Williams spent Sunday and Monday in Jacksonville.

Pomona is now having an epidemic of whooping cough, mostly among the little folks.

The infant girl belonging to Mr. and Mrs. W. H. Bellamy, died last Saturday night, after a short little life of just four weeks. The funeral was at the house Sunday morning, and interment in the Como-Pomona cemetery.

Isaac Carey who spends his winters here with Mr. and Mrs. C. E. Smith, has returned to his home in New York.

Halsey Heule of Cocoa arrived in town Tuesday to make arrangements to have his launch shipped to Crescent Lake, from whence he will take it by water to the Indian River.

W. H. Cook will soon have an up-to-date irrigating plant in his orange grove, Mr. D. Long, of Jacksonville having it in charge.

Dr. Geraldine S. Davis, Osteopathic Physician, will be at the Kupperbusch Hotel Tuesday and Friday of each week from 11-30 to 4-30 p. m.
